USB 3.1 USB-C to USB-A cable - 1m (3ft)

StarTech ID: USB31AC1M

Need to connect your new USB Type-C™ device to a device with a traditional-style USB-A USB port?

This 1m USB-C™ to USB-A cable is the perfect solution.

Charge and sync your USB Type-C mobile devices

With a bandwidth of 10 Gbps, this USB 3.1 Gen 2 cable lets you sync your USB Type-C devices in no time at all.

Moving large files or transferring movies can be done in seconds -- at twice the speed of USB 3.0 and 20x faster than USB 2.0 -- all while charging your device with 60 Watts (3 Amp) power delivery.

Connect USB 3.1 peripherals

You'll also be able to connect your USB 3.1 peripherals, such as hard drive enclosures and docks, to devices with a USB-A port. Now, you can spend less time transferring and backing up your data and more time focusing on your projects and presentations.

Bridge the generation gap

Connect your newer devices to older computers; USB 3.1 is backwards compatible with previous USB devices.

The USB31AC1M is backed by StarTech.com's 2-year warranty for guaranteed reliability.

Applications

- Connect USB 3.1 devices (portable hard drive, docking stations, etc.) to a USB 3.1 capable laptop or desktop computer
- Connect USB 3.1 devices to older USB computers (USB 3.0 or USB 2.0)

Features

- USB 3.1 data transfer rates up to 10Gbps when used with USB 3.1 host and device
- Simple connections through a reversible USB Type-C connector, which plugs into your device with either side facing up
- Guaranteed reliability with our 2-year warranty
