Portable USB 3.1 Gen 1 Gigabit Ethernet Adapter with 3-Port Hub, Aluminum

MODEL NUMBER: **U460-003-3A1G**

Highlights

- USB-A ports support data transfer rates up to 5 Gbps
- Supports true 10/100/1000 Mbps network speeds
- Plug and play—no drivers or external power supply needed
- Fits easily into backpack, briefcase or laptop bag
- Backward compatible with previous USB generations

System Requirements

- Device with USB-C port (USB 3.1 port needed to achieve USB 3.1 speeds)

Package Includes

- U460-003-3A1G Portable USB 3.1 Gen 1 Gigabit Ethernet Adapter
- Owner's manual

Description

The U460-003-3A1G Portable USB 3.1 Gen 1 Gigabit Ethernet Adapter's built-in USB-C cable connects to your tablet, laptop or computer to give you three external USB-A ports. Just plug and play with no drivers or external power supply needed. Ideal for a wide range of USB devices, such as flash drives, external hard drives, DVD players, MP3 players and digital cameras.

Plus, the U460-003-3A1G's RJ45 port connects your computer to a wired network or the Internet using a UTP cable, such as Tripp Lite's N201-Series Cat6 cables, without requiring the installation of an internal Ethernet card.

The bus-powered adapter and hub supports USB 3.1 Gen 1 data transfer rates up to 5 Gbps—ten times faster than USB 2.0—as well as true 10/100/1000 Mbps network speeds. All three USB ports support USB Battery Charging (BC) specification v1.2, which indicates they provide up to 1.5A for fast charging of mobile devices. The compact aluminum case fits easily into your backpack, briefcase or laptop bag to power USB-enabled devices or access the Ethernet wherever you are.

The U460-003-3A1G is backward compatible with previous USB generations, so you can continue using older peripherals while getting maximum high-speed performance from new devices. Adapter is IEEE 802.3az (Energy Efficient Ethernet) compliant. Supports IPv4 and IPv6 pack COE (Checksum Offload Engine) to reduce CPU loading, as well as full- and half-duplex operations, Wake-on-LAN, jumbo frames and VLAN tagging.

Features

Increases Your Computer's Available USB-A Ports by 3

- Connects to your tablet, laptop or computer's USB-C port to provide 3 USB-A ports

- Ideal for flash drives, external hard drives, DVD players, MP3 players and digital cameras
- Supports USB 3.1 Gen 1 data transfer rates up to 5 Gbps—10 times faster than USB 2.0
- Backward compatible with previous USB generations
- Supports USB Battery Charging (BC) specification v1.2, so ports provide up to 1.5A for fast charging of mobile devices

Also Provides an Easy Network Connection
- RJ45 port connects to a wired network or the Internet using UTP cable, such as Tripp Lite's N201-Series Cat6 cables
- Supports true 10/100/1000 Mbps network speeds
- No internal Ethernet card needed

Manufactured to Exacting Specifications
- Compliant with IEEE 802.3az (Energy Efficient Ethernet)
- Supports IPv4 and IPv6 pack COE (Checksum Offload Engine) to reduce CPU loading
- Supports full- and half-duplex operations
- Supports Wake-on-LAN, jumbo frames and VLAN tagging

Take the Hub Anywhere
- Bus-powered through USB-C connection
- Compact case made from lightweight aluminum
- Fits easily into your backpack, briefcase or laptop bag
- Built-in cable is perfect for travel

Specifications

ENVIRONMENTAL	
Storage Temperature Range	14 TO 140 F (-10 to 60 C)
Relative Humidity	10% TO 90%
Operating Temperature	32 TO 104 F (0 TO 40 C)

CONNECTIONS	
Connector A	USB C (MALE)
Connector B	USB 3.0 A (FEMALE)
Connector C	RJ45 (FEMALE)
Ports	4

SPECIAL FEATURES	
Chromebook Compatible	Yes

WARRANTY	

Product Warranty Period (Worldwide)	1-year limited warranty
