

Cable – Backplane SATA 22pin > 7pin + 4pin Power (NSS)

Description

This SATA All-in-One cable – Backplane by Delock is a special product for Network Storage Systems / Server, which enables that a connected SATA HDD after releasing, will be completely ejected from the electrical contact, due to an internal spring system. Thus you do not require an additional lever mechanism. This product is especially designed for the development of new Storage systems as well as other special solutions.
