

1U 3-Fan Rack Mountable Unit

The Connectix Cabling Systems 1U High 19" 3-Fan Rack Mountable Unit is an ideal accessory in a small office, medium enterprise or data centre applications to increase ventilation and airflow within wall mount, floor standing or server equipment cabinets. Improved airflow keeps the high-value rack components cool; helping to augment performance and avoid potential costly failures, downtime, equipment damage or data loss.

Each fan tray unit is CNC punched from cold rolled mild steel, CNC folded, and powder coat painted black (RAL 9005) for a durable finish. Design includes integrated fan guards on the bottom and top of the fan tray unit.

Features & Benefits

- Compliance with EIA-310-E, IEC 60297-3-100 & IEC 62368-1
- AC axial fans
- Easy access, front mounted illuminated on/off switch
- IEC 60320 C14 inlet socket located at the rear
- Includes 1.5 metre UK 3-pin Plug (BS 1363) to IEC 60320 C13 socket power lead
- RoHS and REACH compliant

Product Specifications	
Fan Tray Dimensions	482.6mm (W) x 44mm (H) x 165mm (D)
Fan Tray Colour	Black
No. of Fans	3
Mains Supply Voltage (V)	230
Mains Supply Frequency (Hz)	50
Fan Tray Weight (kg)	3.4

Fan Specifications		
Fan Size	120mm x 120mm x 38mm	
Fan Speed (rpm)	2500 ± 5%	
Fan Air Flow (cfm)	Per Fan	46
Fan Noise Level (dBA)	Per Fan	40
Fan Power Consumption (W)	Per Fan	57
