

Cabinets

Server Cabinets

Racky Rax Server Cabinets have been designed to offer the optimum housing for servers and networking hardware. Mesh front and rear doors plus a vented roof add up to offer maximum ventilation. The cabinets are fitted with quick release front and rear perforated doors (approximately 60% open), fitted with lockable swing handles. The side panels can be fitted with cabinet locks. The large floor aperture gives maximum cable access, plus there is cabling access in the top. All apertures are fitted with blanking plates as standard.

These 800 wide cabinets have additional cable access next to the rack profiles to allow easy routing of cables from the front to the rear of the cabinet. These Server Cabinets are available in various configurations and are supplied fully assembled on a pallet, but all cabinets can be easily dismantled if required. The high quality attractive black finish ensures the cabinet will complement high specification office environments.

Features and Benefits

- Front single mesh door
- Rear dual mesh doors
- Lockable doors front and rear
- Fully removable solid steel sides
- Design allows for maximum ventilation
- RU marked rails
- Honeycomb vents on front and rear doors
