

Custom Multimode Duplex Fibre Patch Leads

Using our in-house state of the art fibre optic manufacturing facility, we can make virtually any type of duplex fibre patch lead to your exact specification.

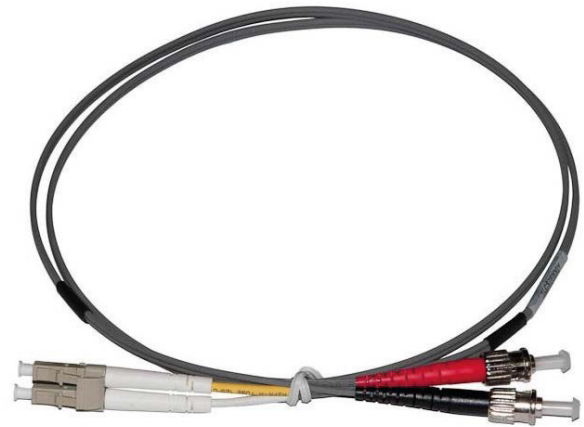

Because we use our own facility we can ensure the highest standards of quality while lead times are kept to the minimum. These leads are UK manufactured to order to your exact specification and individually tested to exceed all performance standards required for fibre optic data communications.

Features & Benefits

- Quick installation time
- Low installation cost
- Full test documentations supplied
- No special fibre optic skills or equipment required
- Factory terminated and tested
- ST, SC LC connector options

Options

- Length - Choose the length for your requirements
- Connector Types - ST, SC & LC
- Fibre Sizes - 62.5/125 (OM1), 50/125 (OM2), 50/125 (OM3) and 50/125 (OM4)

Product Specifications

	62.5/125 (OM1)	50/125 (OM2)	50/125 (OM3)	50/125 (OM4)
