Guarantee	5 years
Min. distance to the wall (mm)	720.0

PFW 952 Right-angled flat display wall mount back-to-back

The PFW 952 right-angled flat display wall mount back-to-back is part of a modular system which enables you to create your own wall mounting solution for 2 LCD/Plasma TV's up to 60 kg. Just add the needed 2 universal flat display interfaces (FAU 3150/3125), depending on the display. The Autolock[®] locking system locks the interface onto the mount and prevents the display from falling of the turn and tilt unit when accidentally lifted. The optional lock PFA 9008 blocks the locking system, hence preventing theft. This support is especially applicable in hall ways or in corners, if the connecting wall is not suitable for mounting.
