

USB 3.0 to 2.5" SATA III Hard Drive Adapter Cable w/ UASP – SATA to USB 3.0 Converter for SSD / HDD

StarTech ID: USB3S2SAT3CB

The USB3S2SAT3CB USB 3.0 to SATA adapter cable lets you connect a 2.5" SATA hard drive or solid state drive to your computer through an available USB port. The cable supports UASP, allowing for transfer speeds up to 70% faster than conventional USB 3.0, which enables you to utilize the full potential of your SATA III SSD/HDD, when paired with a UASP-enabled host controller. See our UASP testing results below for further details.

This portable, cable-style adapter makes it easy to swap between hard drives without having to install your drives in an enclosure, and features a lightweight design with no external power required, for easy storage in a laptop bag or carrying case.

The USB3S2SAT3CB is backed by a StarTech.com 2-year warranty and free lifetime technical support.

Improved Performance with UASP

UASP is supported in Windows 8, Mac OSX (10.8 or above), and Linux. In testing, UASP performs with a 70% faster read speed and 40% faster write speed over traditional USB 3.0 at peak performance.

At the same peak in testing, UASP also shows an 80% reduction in required processor resources.

Testing results were obtained using an Intel® Ivy Bridge system, a UASP-enabled StarTech.com Enclosure, and a SATA III solid state drive.

Applications

- Take advantage of USB 3.0-enabled laptops or desktops with UASP for faster transfer speeds
- Create an external storage solution on the go, for desktops, laptops or Ultrabook™ computers
- Access any 2.5" hard drive from any USB enabled computer
- Back up important data to an external storage device
- Retrieve data from an old SATA drive
